Special Session of Parliament

TEA REGULATION

At the start of a turn, the Prime Minister may call a session of Parliament to vote on this law if the Available Credit is less than the either the Company Debt or the number of Tea Crates. If it's less than both, the session must be called. In either case, no other policy or act is proposed.

The initial support of the law equals the amount of Tea Crates in the Director of Warehouses' treasury minus the amount of Available Credit. When passed, the Company gains a trade monopoly on tea in America.

Raise the **Value of Tea** by 1. Place the Standing marker on the "S" space on the track and **3 Company ships** in the Atlantic.

The **Director of Warehouses** becomes the **Consignor of Tea**. Return the Director of Warehouses card to the box. Flip this card.

4

Colonial Duty

TEA REGULATION

The Company may trade tea in colonized regions in America. The Manager of Shipping may buy player-owned ships from a Firm with the shipowner's consent.

When the Company trades successfully, add £1 to the Colonial Treasury per filled order.

The **Commissioner of Customs** should use the rules from the previous Colonial Duty for the firms and smugglers.
